

the respondents and the federal government;

3. The collections are non-controversial and do not raise issues of concern to other federal agencies;

4. Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;

5. Personally identifiable information (PII) is collected only to the extent necessary and is not retained;

6. Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;

7. Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

8. Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

**Respondents/Affected Public:** State, Local, and Tribal Governments.

**Total Estimated Number of Annual Responses:** 56.

**Abstract:** This is a request for an extension of a previously approved information collection that solicits from States, Outlying Areas, and State educational agencies (SEAs) maintenance of effort (MOE) data under section 18008 of the CARES Act. Under four programs—the Governor’s Emergency Education Relief Fund (GEER Fund, Section 18002) and the Elementary and Secondary School Emergency Relief Fund (ESSER Fund, Section 18003) and two formula grant programs to the Outlying Areas authorized under Section 18001(a)(1), Education Stabilization Fund–State Educational Agencies (ESF—SEA) and Education Stabilization Fund–Governors (ESF—Governor)—States are required to maintain fiscal effort on behalf of elementary, secondary and postsecondary education. Recipients of the resources from the ESSER Fund, the GEER Fund, the ESF—SEA Fund, and the ESF—Governor Fund have signed Certifications and Agreements, in which they agree to abide by the provisions of the CARES Act, including MOE requirements. The Department is requesting an extension of the currently approved collection to meet the requirements of the CARES Act and ensure that States and Outlying Areas are meeting the MOE requirement. In the publication of frequently asked questions regarding the Maintenance of Effort requirement, ED issued guidance and a sample form for States and Outlying Areas to submit this statutorily required data.
