

Good Evening,

This email will consist of the summary requested to share with the committee for the DAC IPAD.

My husband was falsely accused and wrongly convicted. One of the accusers of his court martial trial sent a letter to my husband while he is serving his time in prison; admitting to deliberately planning and lying to the court, conspiring with the other victim, manipulating government witnesses, etc.

My husband has been in prison for over a year because he was sent to pre-trial confinement in August 2023, his court martial trial was in February 2023. His record of trial has not been released as of yet so he can start his post-trials matters.

He is being mistreated in military prison; he isn't receiving healthcare (he has a lot of life threatening health conditions), he cannot practice his religion, he is being threatened by inmates, the prison facility is adding unnecessary charges on him with lack of evidence, etc.

Warm Regards,

Alana Richards
